

Report to the Board  
Kathy O'Malley Children's Department  
May 2022

### **Programs**

All programs are going well and are well attended. They will run through May and then be on hiatus until Summer Reading begins in July.

I am already getting calls from teachers to book their school visit field trips in June. In the past we have done several classes a day right up through the last full day of school. Naturally, the last 2 years were different, but it seems like things are back on course for 2022. We are looking forward to a busy summer.
