Board Report

Some staffing changes have required some readjustments to the social media workflows. The Facebook page plays a major part in our efforts to communicate with the public but it is also high maintenance. The Google Calendar can now be updated through an export of the Library's Events page.

The New ScannX machine arrived just before Christmas. It is essentially a larger touchscreen with more updated software. There are a few other features such as cropping and image adjusting that were not available on the older machine.

The B.A.W.P (Big Annual Weeding of Periodicals) will commence around the end of January!
