

March 2023
Board Tech Report
Chad Taylor

Manga project is done, waiting on some new shelving. YA fic and Large Print are moved.

3D printing is coming along. Much improved with new parts purchased with funds from Friends. Printing is much more consistent. Will probably start doing presentations or programming in May.

Webpage development continues: Children's page, Friends Page and adapting the Newsletter and Calendar.

Planned for April digital literacy sessions, 2 each, of computer basics, websites and searching, email and social media.
