Board Report

We purchased 3 charging stations for library patrons. They are on stands throughout the library and have three HDMI Mini, 3 usb-C and 3 Lightning ports for apple products.

I have made some additions to the Technology page regarding tech help, and technology basics including some keyboarding, mousing, and resources for coding and programming.

One of the teens mentioned Star Trek Day was coming up in early September so together with Alijah, the programming Librarian, we put together a Star Trek Day celebration on September 7th in about two or three weeks' time. With about a weeks worth of publicity 26 people attended.
