Board Report

We had about 20 people at the Christmas Family photo event. Several large groups of teens, and a few families. Most of the families had attended the Holiday family photo event the previous month.

We had some major issues with patron computers this month. Many of these were resolved by early January. The library purchased new computers for patrons due to the computers frequently losing connection to the internet and needing to be restarted. The new computers got a software upgrade. Unfortunately, we also have gotten a new switch which has been causing problems. Mike and Jeff are working on solving this issue with Spectrum.
