Board Report

FSC will be in to do cameras the 18th and 19th of March.

Advent completed its data wiring last month, but will be in at some point to replace and update some of the data wiring near the patron computers.

We have been having some continued difficulties with the patron printers which Mike believes is related to a lack of IP addresses caused by local wi-fi devices. Mike is in the process of expanding our range of addresses.

Received a quote for adding Power outlets to wall outside of teen room and in teen room.

We have had a rush of three or four 3D printing requests in March.
