Board Report

Only three participants in one of the computer basics sessions last month.

Ellman electric project is complete. There are now two 4 outlet plugs in the teen room and several new outlets in the 'makerspace' area. Eliminating several power strips.

Mike Jones says a two-factor authentication process will be implemented in June, so we will need to be preparing staff for that.

April's Minecraft program was a big success. We are considering how to have more of these.
